

# MA in Sociology Graduate Program

### Master of Arts in Sociology (MA)

## MA SOCIOLOGY

he Master of Arts in Sociology program prepares students broadly in the basic skills and knowledge used by a sociologist. We aimed at providing advanced study techniques beyond the graduate level for work as an applied social scientist outside of academic life, as in government administrative jobs or research departments or community programs.

The program is designed to help our students comprehend the social forces that shape their world with studies in research methods, statistics, and evaluation research.

IICSE University graduates are researchers, managers, instructors, policy analysts, and service providers in health care, social service and criminal justice agencies, and in corporate departments throughout the area. Many have continued their advanced studies in PhD programs.

#### The thesis

A thesis on a particular topic of your choice (with a Supervisor's approval) will be completed by each student in the last semester. There is considerable scope in the choice of subject areas by the student and the research method employed. Each student is allocated a supervisor who guides them through the thesis. The thesis aims to assimilate the theoretical and practical elements of the academic program of study.

**Duration of program:** A Semester runs for a period of three months. Our "Master's Degree" programs are completed within the period of four semesters (one year). We allow extension in the period of study, in case your courses could not be completed within the stipulated time frame. No additional fee, no extra charge for extension in the period of study.

#### How to apply

Prospective student must complete the Admission Form and pay the processing fee of \$45 USD or its equivalent. The processing fee is refundable if admission is denied.
