MBA in Finance Graduate Program

Master of Business Administration (MBA)

MBA | FINANCE

Finance curriculum provides an understanding of the finance decision-making process and insights into how financial markets function. Courses in finance include corporation finance and investments, financial markets and the international financial system, among others. All finance courses apply economic analysis, accounting, and quantitative methods to the financial questions encountered.

Our finance programs prepare you for higher professional careers in corporate financial management; investment banking; business and financial consulting; commercial lending; portfolio analysis and management; regulatory agency responsibility; brokerage and investment analysis; financial services; real estate finance; treasury operations; finance and asset and loan management for individuals, private foundations, corporations and government agencies; and finance faculty and research positions.

The thesis

A thesis on a particular topic of your choice (with a Supervisor's approval) will be completed by each student in the last semester. There is considerable scope in the choice of subject areas by the student and the research method employed. Each student is allocated a supervisor who guides them through the thesis. The thesis aims to assimilate the theoretical and practical elements of the academic program of study.

Duration of program: A Semester runs for a period of three months. Our "Master's Degree" programs are completed within the period of four semesters (one year). We allow extension in the period of study, in case your courses could not be completed within the stipulated time frame. No additional fee, no extra charge for extension in the period of study.

How to apply

Prospective student must complete the Admission Form and pay the processing fee of \$45 USD or its equivalent. The processing fee is refundable if admission is denied.

Applications for the program:
